HANNSpree

Bluetooth Keyboard

Strong and durable built

Handy Touch Pad

Function Keys for easy shortcut access

Full Keyboard Functions

The Hannspree Bluetooth Keyboard comes with a useful Touch Pad conveniently placed to make using it very comfortable. It also has the Function Keys for easy shortcut access.

Sturdy and Durable

Made of durable materials and a rechargeable battery, it allows for it to be used without constantly having to recharge it.

Designed around the details.

Built with you in mind, light weight, long lasting battery and Bluetooth connectivity allow for total freedom of use in a home or office

With a very competitive price tag, a comprehensive range of features and a design built to last, the Hannspree Bluetooth keyboard is first choice for mobile gadget users.

The perfect typing partner for modern portable devices, it is lightweight, durably built and includes a long lasting rechargeable battery providing total mobile freedom in the office, at home or whilst travelling.

In addition to a full size QWERTY layout, the Hannspree Bluetooth Keyboard includes a number of convenient hot keys which provide one touch shortcut access to a variety of operating functions. Unlike many alternative Bluetooth keyboards, Hannspree's keyboard includes a mouse trackpad which provides comfortable operation of the no screen cursor without the need to have a separate mouse. The Hannspree Bluetooth Keyboard is compatible with Windows, iOS, OS X and Android operating systems, making it the perfect partner for the HANNSpad range of Android Tablets PCs, the Hannspree PC on a Stick and other branded devices.
